Team Background

Inaugural Season in 2025 + First ever Pro Soccer Team in Naples

FC Naples joined USL League One as one of five expansion teams in 2025. In a town of just 20,000 residents, the idea of a professional soccer team was once unheard of. The closest professional sports team Naples had was the four-time, back-to-back Kelly Cup champions, the Florida Everblades. For soccer fans in Naples, attending a professional match meant a long drive—two hours to Tampa, two and a half hours to Miami, or, on a good day, three and a half hours to Orlando. This challenge didn't go unnoticed by club president and co-founder Roberto Moreno.

The Community

At the heart of FC Naples is the community. Before becoming FC Naples, the team engaged with locals, inviting them to share their ties to the city and contribute to the creation of the team's crest and official name. Fans had the opportunity to complete a survey and provide their input. This involvement continued with events such as a two-day fan fest, jersey reveal party and meet-and-greets, where fans could connect with the players, paint messages in the players' tunnel, and further strengthen the bond between the club and Naples. From the very beginning, the team's dedication to the community was evident.
